DVP Week 12 – CI/CD Submission Evidence

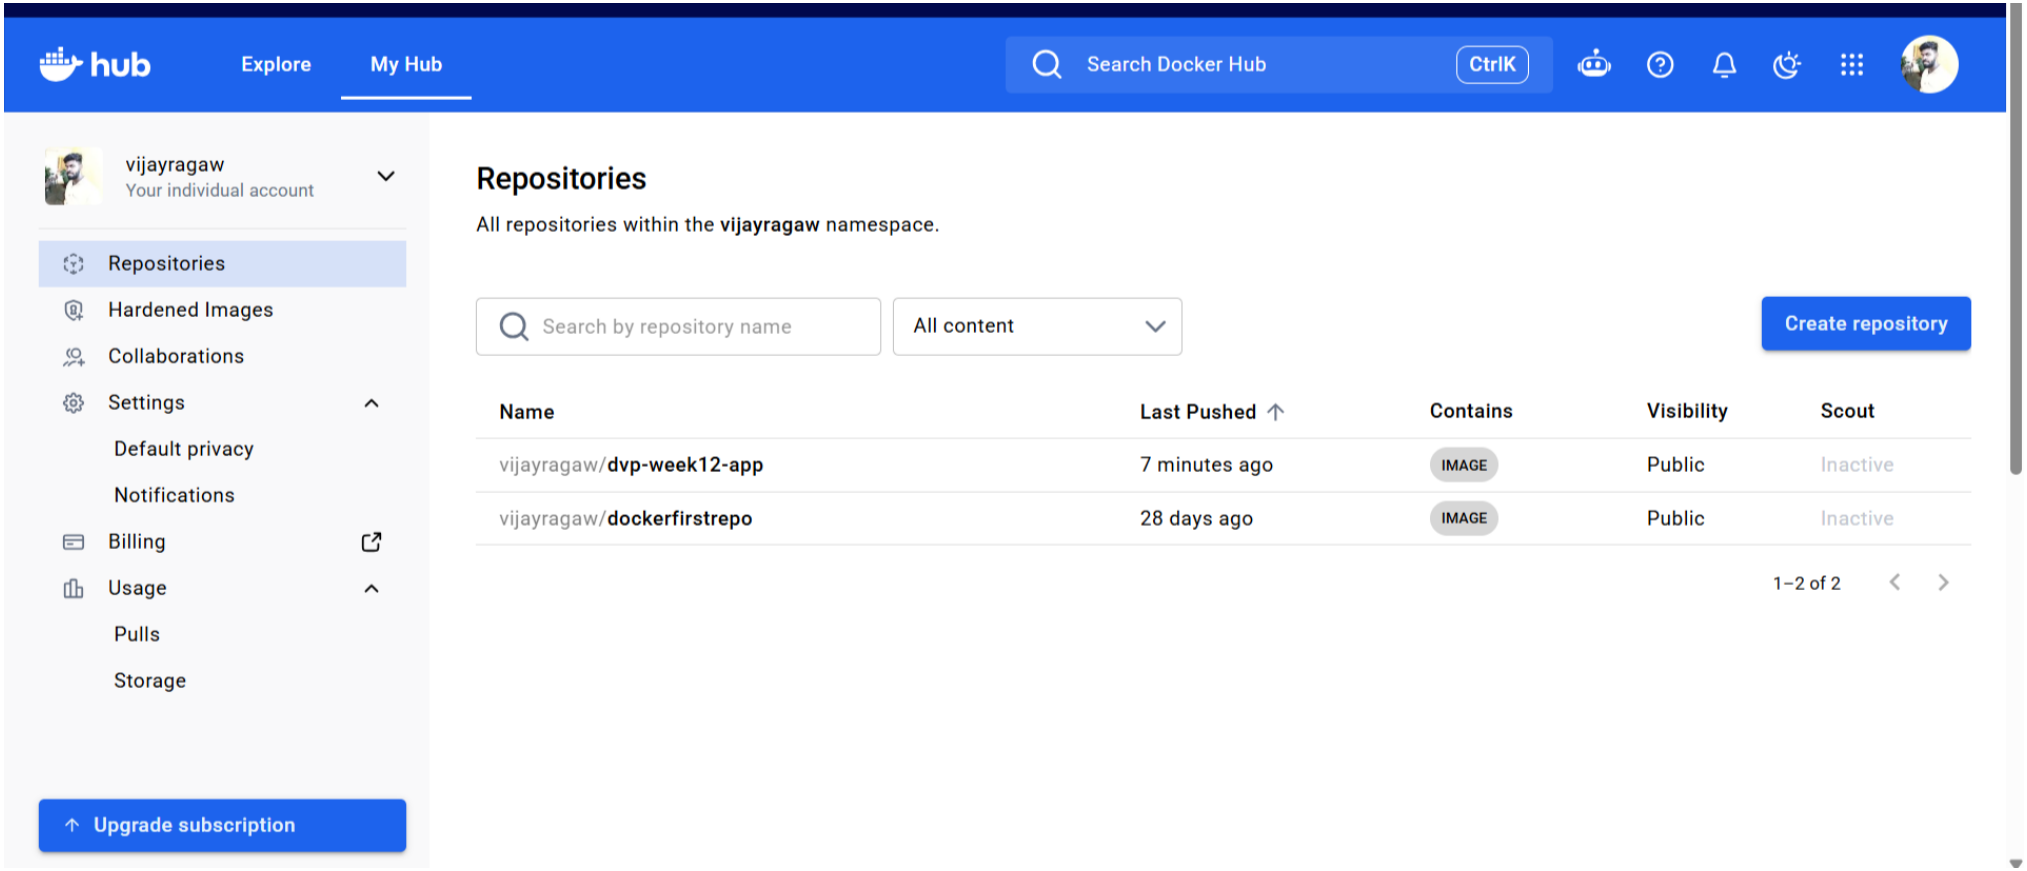

Jenkins • Maven • SonarQube • Docker • Docker Hub • Local Deployment

Project: DVP-Week12-SonarQube-Docker
GitHub: https://github.com/vijayragaw/DVP-Week12-SonarQube-Docker.git
Docker Hub: vijayragaw/dvp-week12-app

This document contains screenshots captured during the Week 12 CI/CD implementation and successful pipeline execution.

GitHub Repository

The GitHub account contains the public Docker image repository used by the Week 12 CI/CD project: vijayragaw/dvp-week12-app.

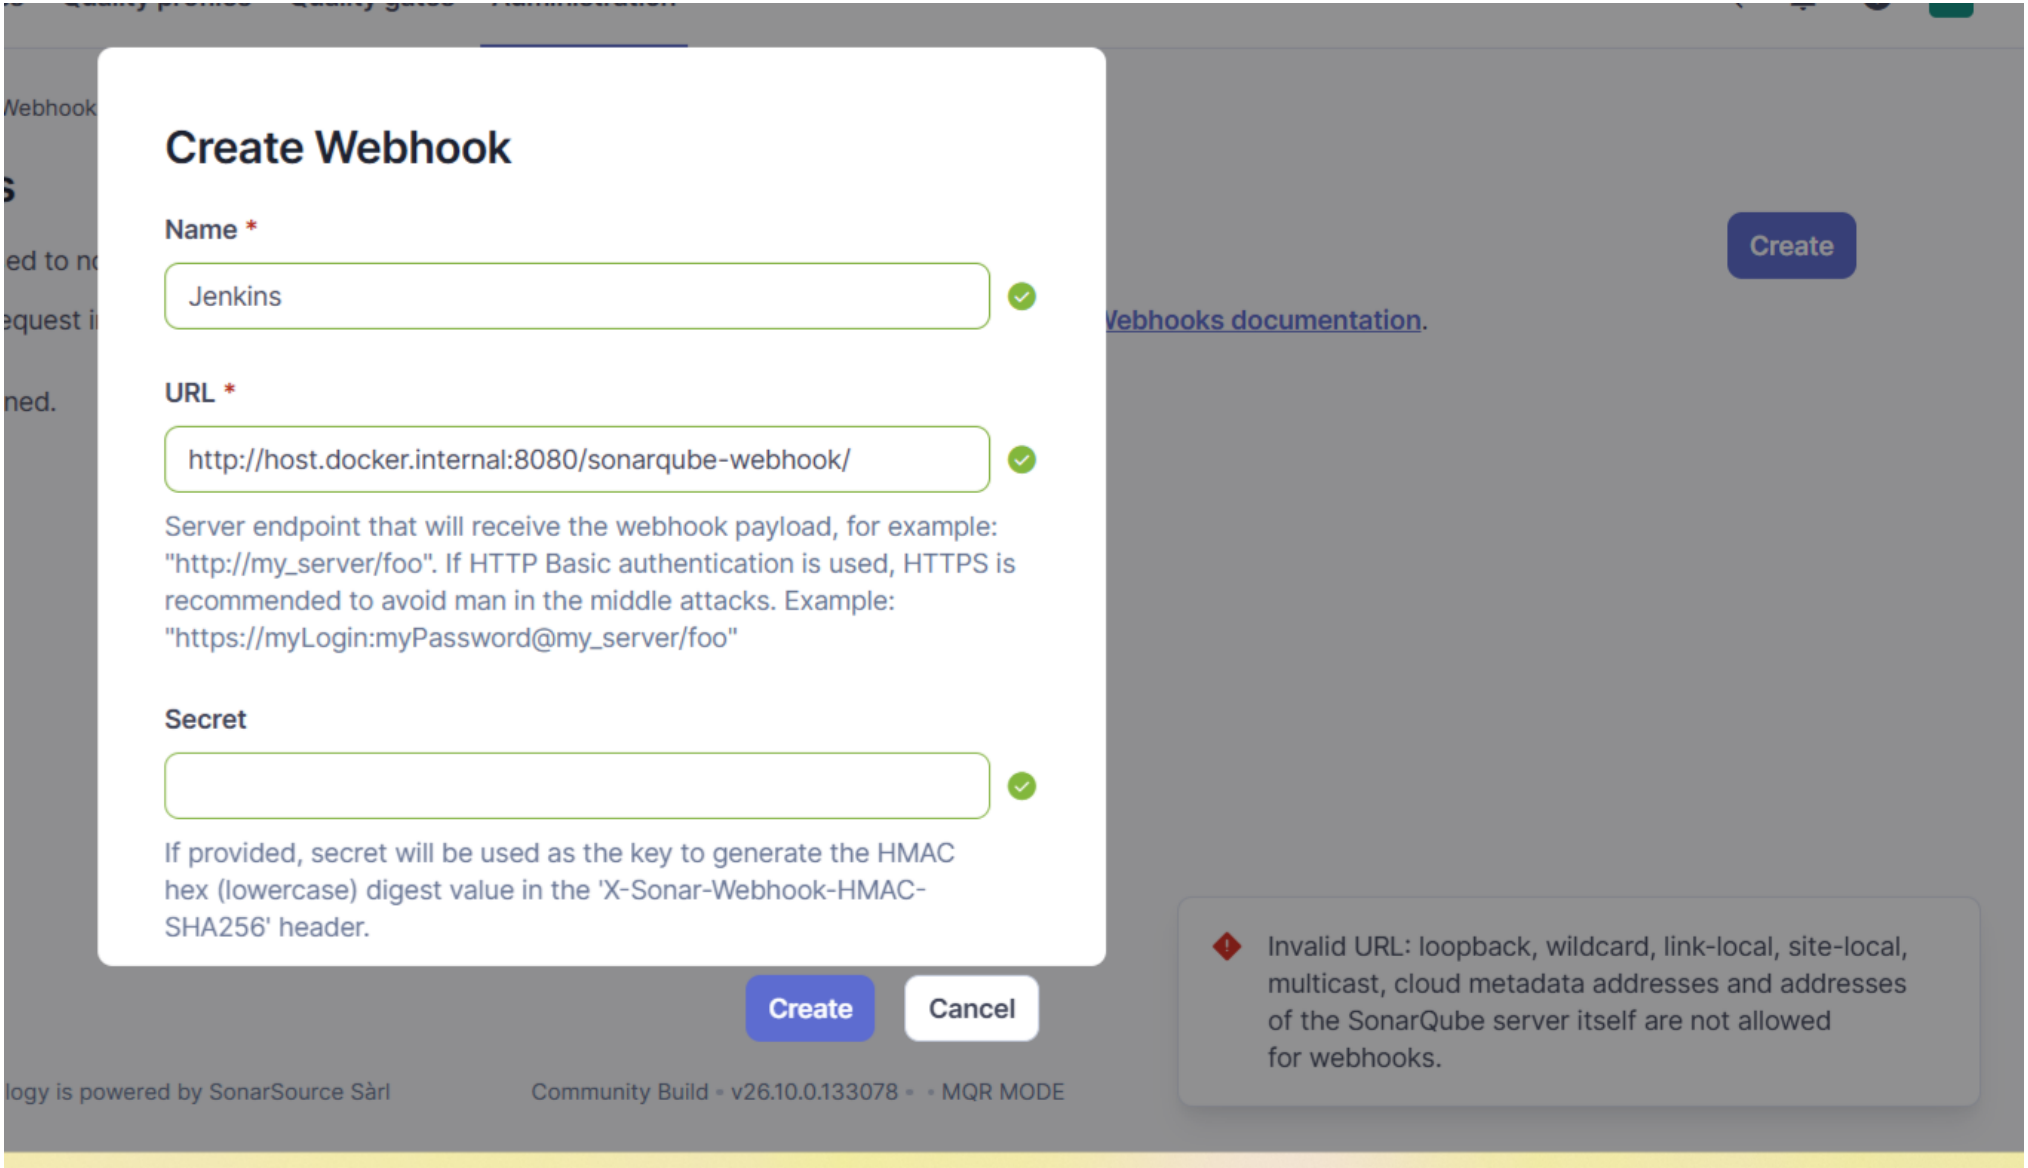

Jenkins Pipeline Configuration

Jenkins is configured to load the pipeline definition from the GitHub repository.

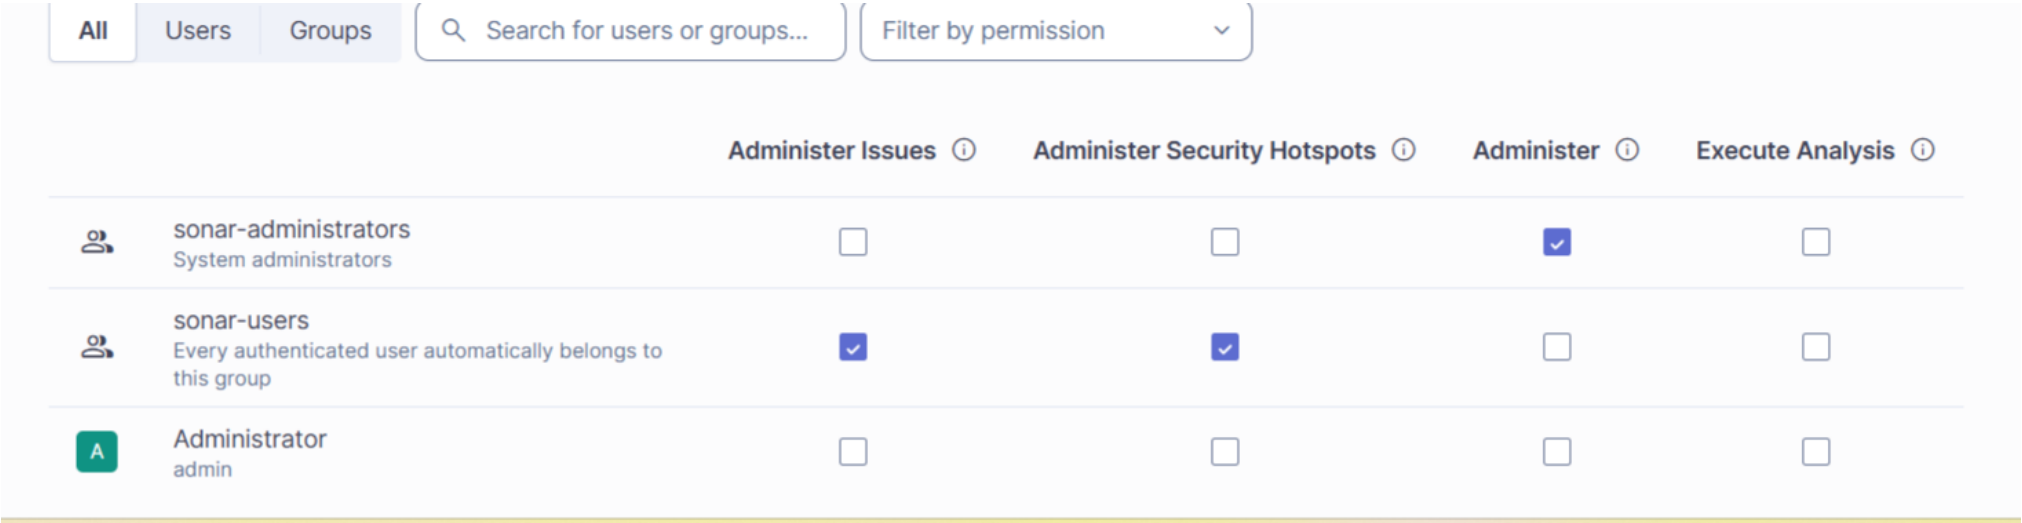

GitHub Webhook Configuration

GitHub webhook configuration used to notify Jenkins about repository changes.

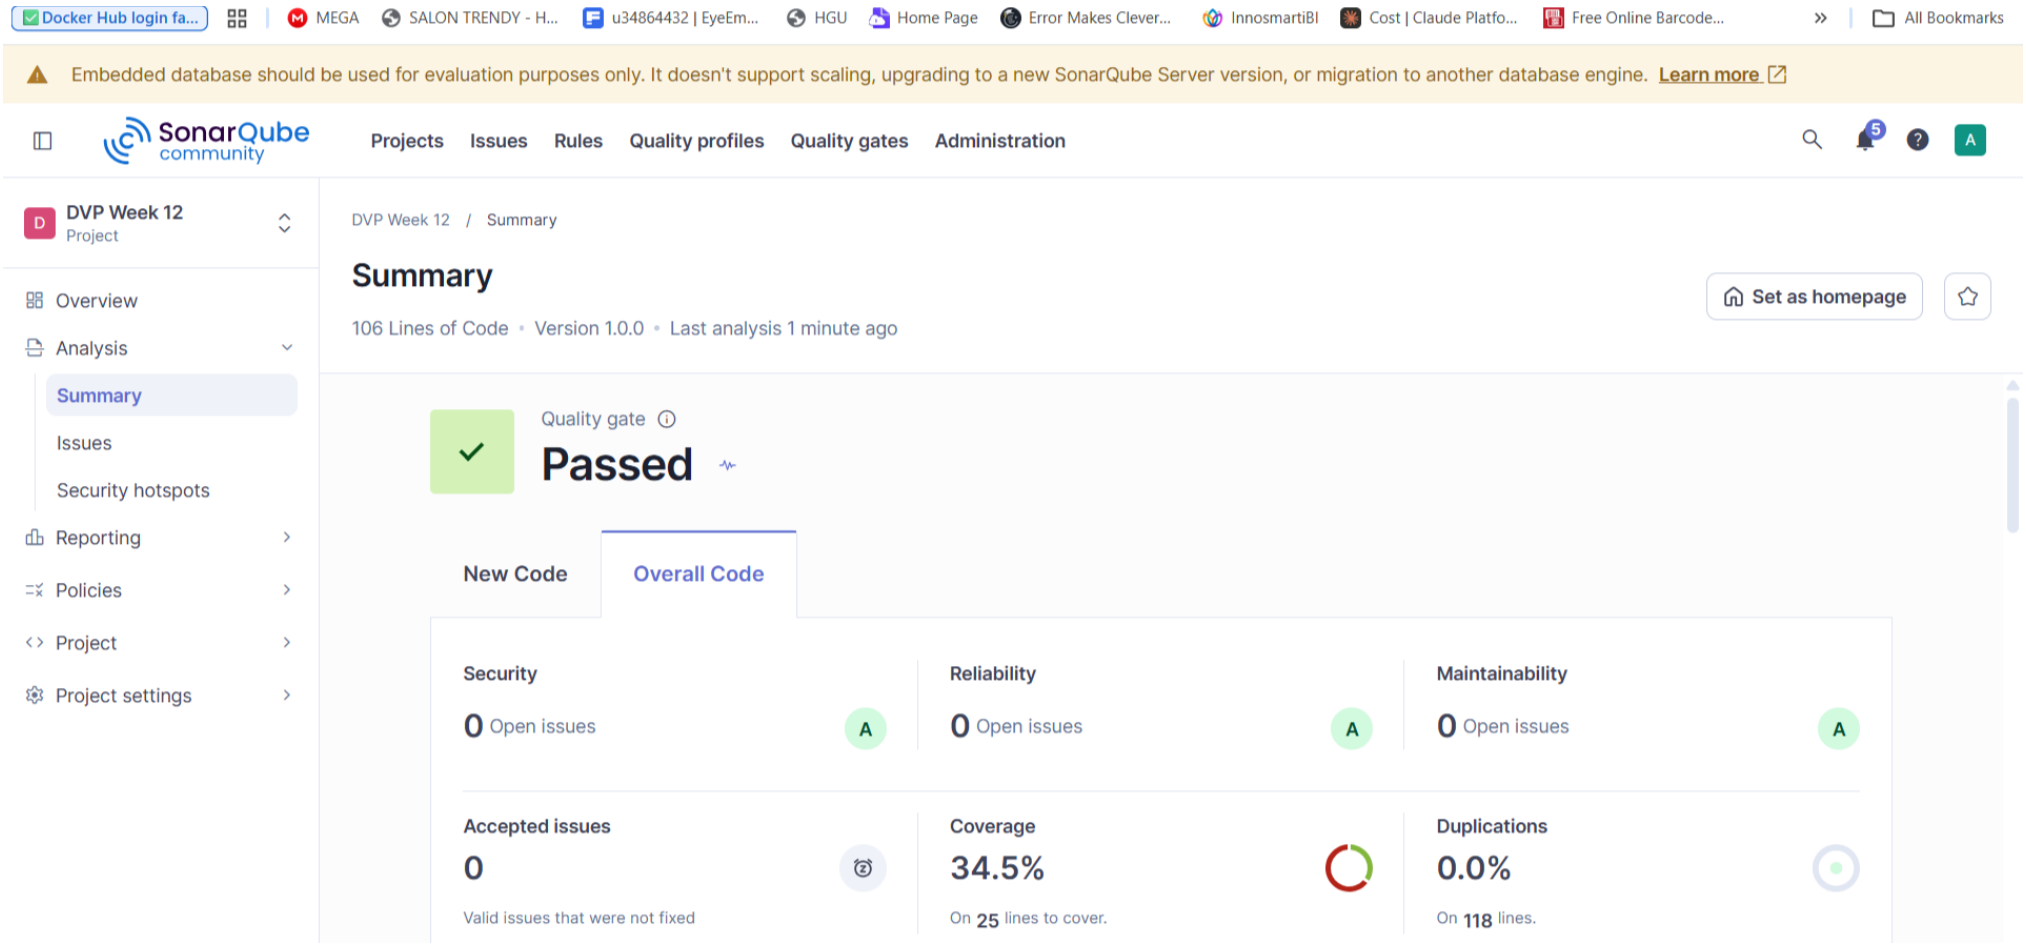

Jenkins Role-Based Access Control

Jenkins role and permission configuration evidence.

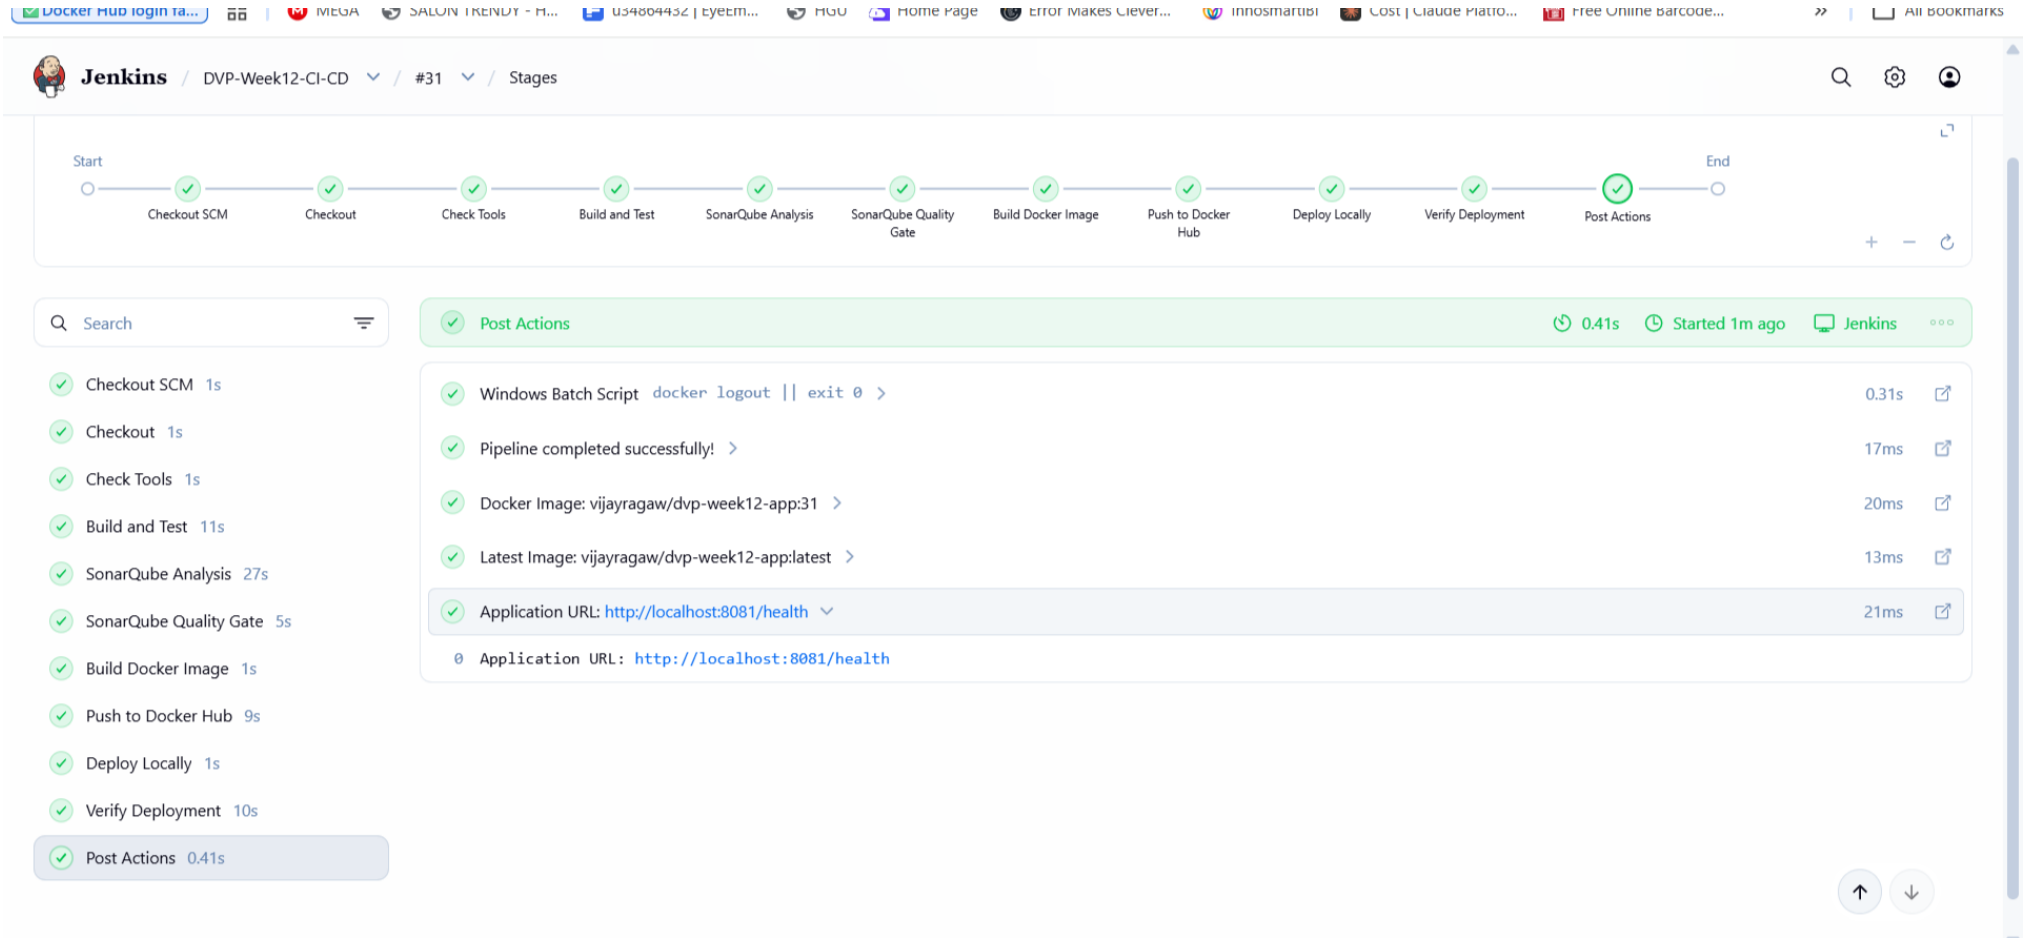

SonarQube Quality Gate

SonarQube analysis completed with the Quality Gate marked Passed. The dashboard shows zero open issues in the displayed categories.

Jenkins Pipeline – Successful Run

The Jenkins stage view shows successful completion of checkout, build and test, SonarQube analysis and quality gate, Docker image build, Docker Hub push, local deployment and deployment verification.

Jenkins Console – Deployment Verification

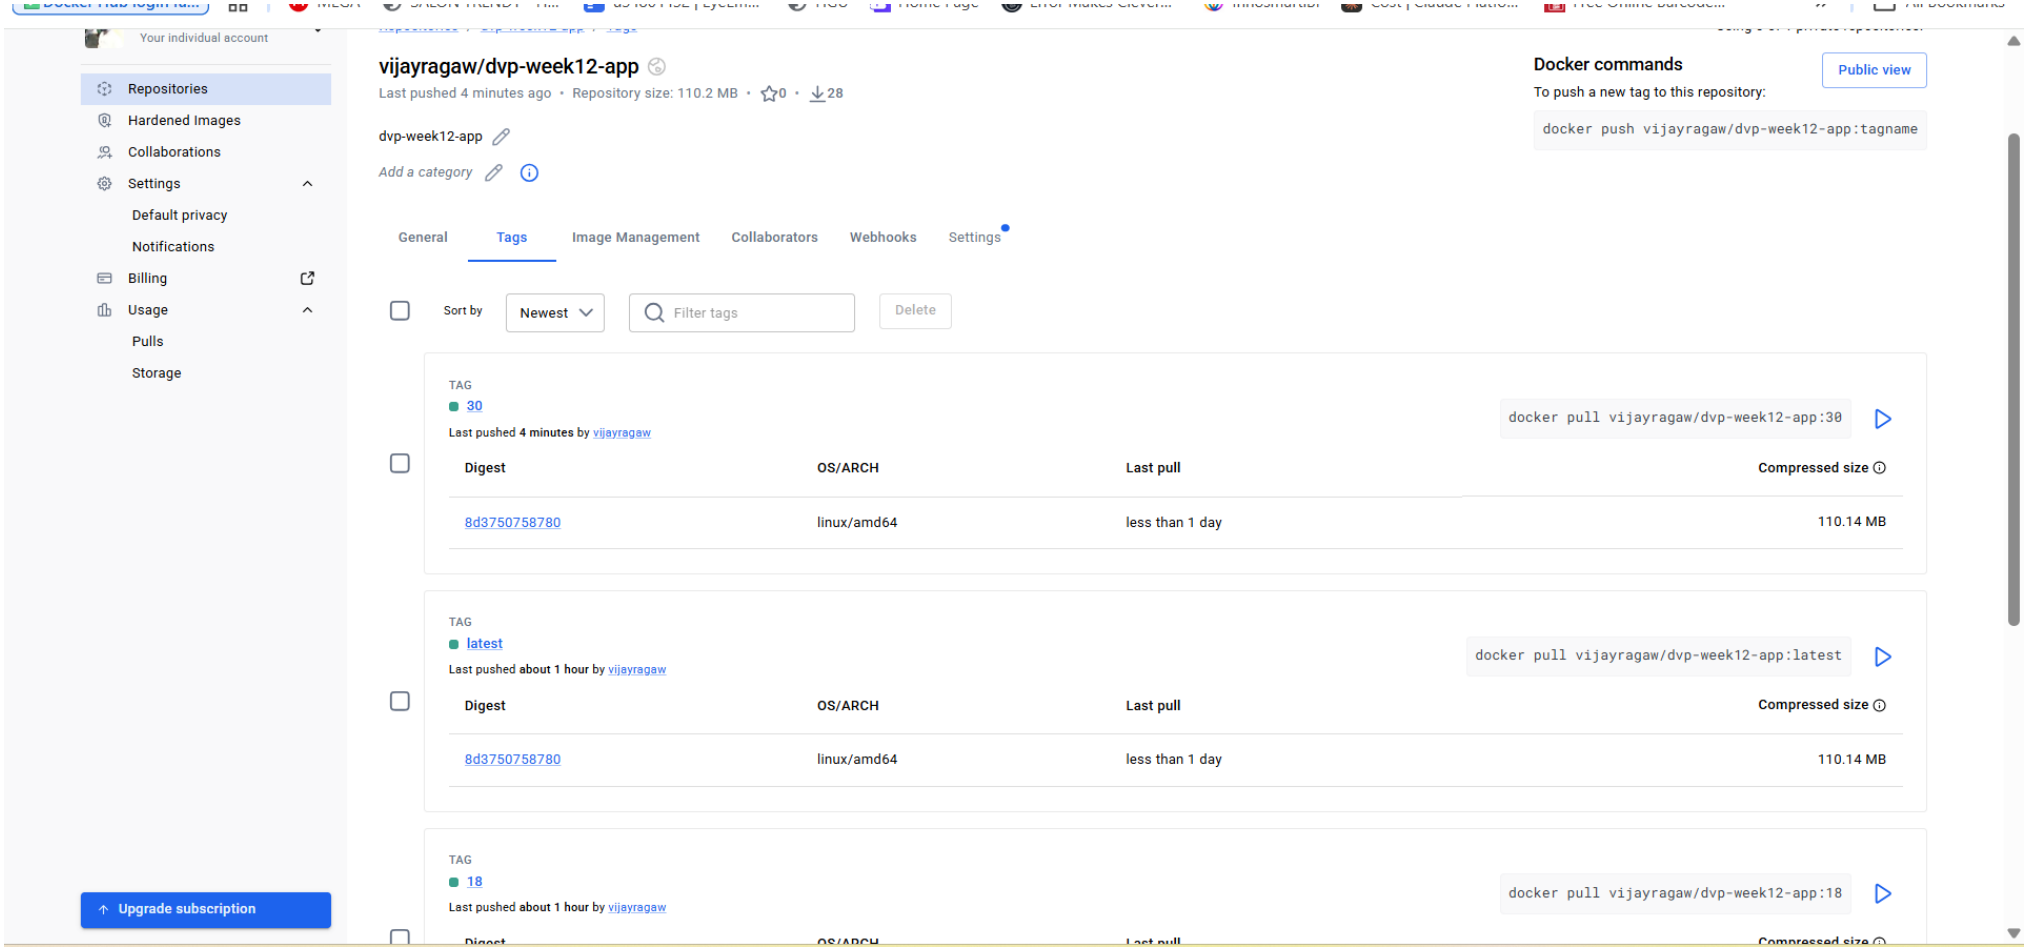

The console output reports HTTP status 200 and confirms that the application is running. The pipeline finished successfully.

```
[Pipeline] powershell
Application HTTP Status: 200
Application Response: Application is running!
[Pipeline] }
[Pipeline] // stage
[Pipeline] stage
[Pipeline] { (Declarative: Post Actions)
[Pipeline] bat

C:\ProgramData\Jenkins\.jenkins\workspace\DVP-Week12-CI-CD>docker logout    || exit 0
Removing login credentials for https://index.docker.io/v1/
[Pipeline] echo
Pipeline completed successfully!
[Pipeline] echo
Docker Image: vijayragaw/dvp-week12-app:31
[Pipeline] echo
Latest Image: vijayragaw/dvp-week12-app:latest
[Pipeline] echo
Application URL: http://localhost:8081/health
[Pipeline] }
[Pipeline] // stage
[Pipeline] }
[Pipeline] // withEnv
[Pipeline] }
[Pipeline] // withEnv
[Pipeline] }
[Pipeline] // node
[Pipeline] End of Pipeline
Finished: SUCCESS
```

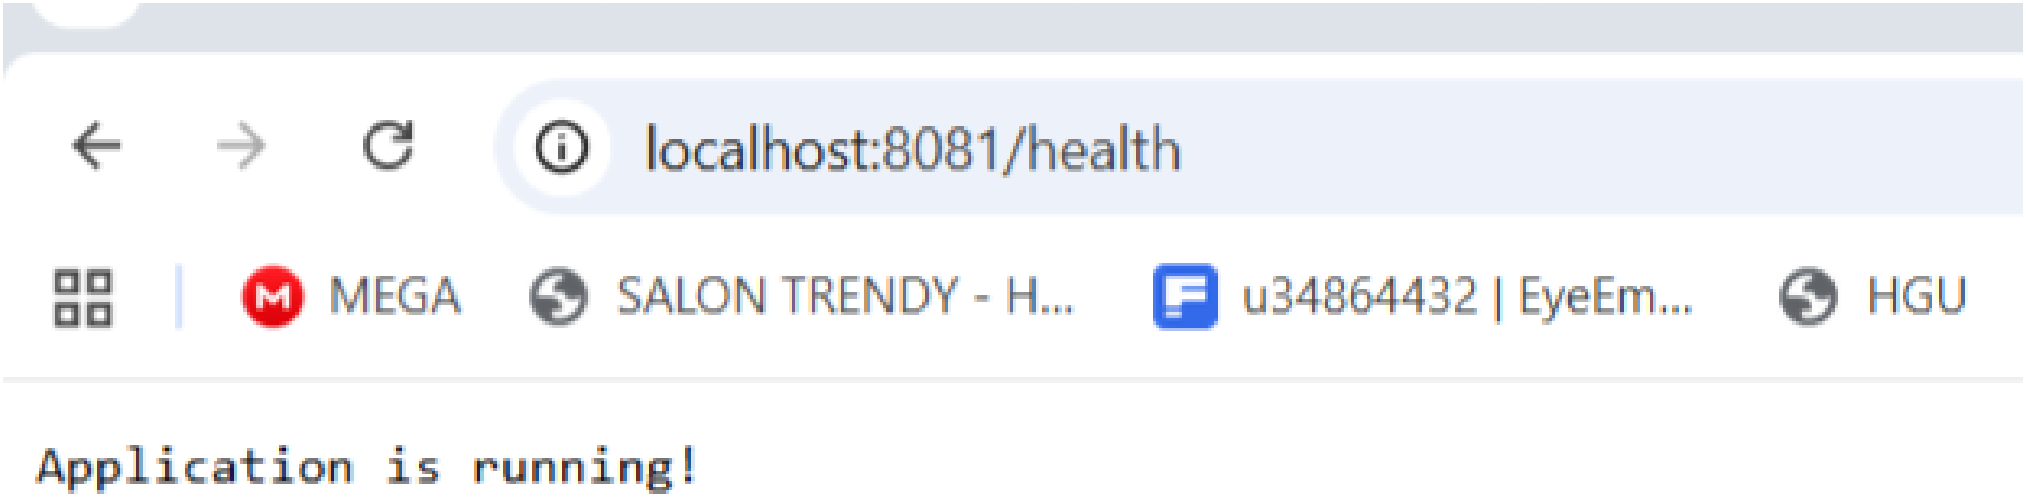

Docker Hub Image Tags

Docker Hub shows the published image tags, including the build-number tag and latest, with matching image digests.

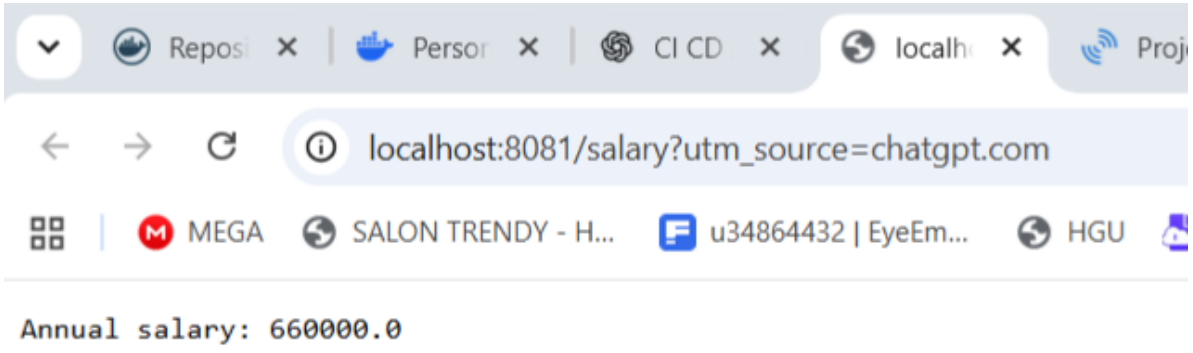

Local Application Health Check

The deployed application responds successfully at the local health endpoint.

Local Application Salary Endpoint

The application's salary endpoint was tested locally.

Docker Image in Docker Desktop

Docker Desktop shows the locally built application image.
